NEROLAC

INTRODUCTION

We are pleased to inform you that we are one of the leading painting contractors in GUJARAT. We are in this field since last 30 years, so we can understand the exact need of the customer on most prompt basis. We are technically sound about colour codes and other aspects approved by the Government.

Surface preparation is the most important job in this field, which includes industrial as well as decorative painting. We are glad to let you know that we are in a position to perform this and all other similar jobs manually, chemically, electrically and if required through sand blasting as well.

After cleaning, we choose for specific paints according to the nature of the job which enhances the protection and keeps the surface secure from abrasive elements such as corrosion, acids, alkalis, fungi, salt fog, humidity etc.
